FOR IMMEDIATE RELEASE

2019 VOLKSWAGEN E-GOLF: VERSATILE, FUN-TO-DRIVE, ZERO TAILPIPE EMISSIONS

Highlights

- EPA-estimated total range of 125 miles and fuel economy of 126 city MPGe
- e-Golf SE features standard DC Fast Charger and optional Driver Assistance Package
- e-Golf SEL Premium now includes standard driver-assistance features, including Front Assist, Active Blind Spot Monitor, Rear Traffic Alert, ACC, Lane Assist, Park Assist and Light Assist
- Electric motor puts out 134 horsepower and 214 lb-ft of torque
- MSRP starts at \$31,895

New for 2019

- The 2019 e-Golf is available in two trims—SE and SEL Premium.
- New for the SE trim is a standard DC Fast Charger, enabling the battery to be charged to approximately 80 percent within an hour at a DC fast charging station. A Driver Assistance Package is available, and includes Forward Collision Warning and Autonomous Emergency Braking (Front Assist), Blind Spot Monitor, Rear Traffic Alert, and Adaptive Cruise Control (ACC).
- The SEL Premium trim now offers a suite of standard driver-assistance features, including Front Assist, Active Blind Spot Monitor, Rear Traffic Alert, ACC, Lane Keeping System (Lane Assist), Park Assist and High Beam Control (Light Assist).

This information is preliminary and subject to change.

Features and technical data apply to models offered in the USA. They may differ in other countries.

All prices listed are the Manufacturer's Suggested Retail Price and exclude destination, taxes, title, options, and dealer charges. Dealer sets actual prices.

The 2019 Volkswagen e-Golf will be available only at participating dealers in select states.

Always pay careful attention to the road, and do not drive while distracted.

Where stated, range (miles) and fuel economy values (mpge) are EPA estimates. See www.fueleconomy.gov for details. Actual mileage and range will vary and depend on several factors including driving and charging habits, accessory use, temperature and topography, battery age, and vehicle condition. Battery capacity decreases with time and use. Not using the vehicle for long periods can cause damage to the high-voltage battery. See owner's manual for details.

When equipped with DC Fast Charging, e-Golf charges up to 80% within an hour requires charging at select DC fast charging stations. Frequent and consecutive high-voltage charging (including DC charging) can permanently decrease the capacity of the high-voltage battery. See owner's manual for details.

Charge time for 7.2W on-board charger in under six hours is the approximate time with available 240V home charging wall box, purchased separately. Actual charge time will vary and depends on several factors including battery age and vehicle condition. Battery capacity decreases with time and use. See dealer or owner's literature for limited warranty details.

Driver-assistance features are not substitutes for attentive driving. See Owner's Manual for further details, and important limitations.
